PROFESSIONAL SUMMARY

Software Engineering undergraduate seeking a **Software Engineering Internship**, with hands-on experience in **Java, Spring Boot, Hibernate/JPA, PHP (Laravel), REST API development, and MySQL**, plus front-end development in **React, JavaScript, TypeScript, HTML and CSS**. Experienced with **GitHub-based version control, software testing (JMeter load testing, Arquillian integration testing)**, and containerization with **Docker**, currently studying **Kubernetes, CI/CD, and cloud infrastructure (AWS)**. Proven remote team leadership with consistent on-time delivery, eager to contribute clean, well-tested backend and full-stack solutions.

TECHNICAL SKILLS

Backend	Frontend & Mobile	Databases	Cloud & DevOps
Java	React	MySQL	Git / GitHub
Spring Boot	React Native	SQLite	Linux
Jakarta EE	TypeScript	Database Design	CI/CD
Hibernate / JPA	JavaScript	ORM / JPA	Docker
REST APIs	HTML / CSS		Jenkins
PHP / Laravel	Android(java)		AWS
Maven			Kubernetes
			Terraform
			Ansible

EXPERIENCE

Remote Team Lead - Digital Operations

- ▶ Led a distributed remote development team, owning task allocation, sprint progress tracking, and delivery across multiple concurrent projects.
- ▶ Resolved inter-team conflicts and maintained team morale, achieving consistent on-time delivery throughout the engagement.
- ▶ Coordinated technical handoffs and code reviews, enforcing quality standards and reducing post-delivery defects.

KEY PROJECTS

Spring Boot REST API Backend · Java · Spring Boot · Hibernate/JPA · MySQL · Maven

- ▶ Architected and implemented production-ready RESTful backend services following layered MVC design, with entities, repositories, service layer, and REST controllers.
- ▶ Applied Hibernate ORM for object-relational mapping and MySQL for persistent data storage, enabling clean separation of concerns.

Full-Stack Web Application · React · TypeScript · PHP (Laravel) · MySQL · REST API

- ▶ Delivered end-to-end web application covering front-end UI (React/TypeScript), server-side REST API (Laravel), and relational database layer (MySQL).
- ▶ Integrated RESTful API contracts between front-end and back-end, enabling decoupled and maintainable architecture.

Native Android Application · Java · Android Studio · SQLite · REST API

- ▶ Built a native Android app in Java leveraging activity lifecycle management, RESTful API consumption, and local SQLite data persistence.

React Native Cross-Platform App · React Native · TypeScript · Third-Party APIs

- ▶ Developed cross-platform iOS/Android mobile application with reusable component architecture and seamless third-party API integrations.

EDUCATION & CERTIFICATIONS

BSc (Hons) Software Engineering

Birmingham City University · 2023 - Present

G.C.E. Advanced Level - Physical Science Stream

Bakamuna Mahasen National College · 2018 - 2022
Physics: S | Mathematics: S | Chemistry: S

Python & Web Programming

Open University of Moratuwa · 2025

Data Science Mastery: Journey into Machine Learning

Udemy · Completed ([Certificate](#)) · Python, Data Analytics, ML

Decoding DevOps - DevOps Engineering Bootcamp

Udemy · In Progress (2026) · AWS, Docker, Kubernetes, Terraform, Ansible, Jenkins, CI/CD

IDET Certified: DevOps/TechOps (Infrastructure-Operations) Practitioner Expert Masterclass

In Progress (2026) · Linux, Shell Scripting, Networking & SSH, Ansible, Terraform, Docker, Prometheus & Grafana, Kubernetes
